Core Competencies

Digital Transformation AI Readiness Assessments Enterprise System Integration

Data Platform Architecture Cloud Modernization Program & Technology Governance

Company Overview

Ix Integration Group LLC is a digital transformation and enterprise integration consulting firm focused on helping federal agencies modernize legacy technology environments and establish scalable digital operating platforms. The firm specializes in enterprise architecture, system integration, digital transformation strategy, and AI readiness assessments that prepare agencies for responsible adoption of advanced analytics and artificial intelligence.

Ix Integration Group focuses on practical execution – translating modernization strategy into deployable operational capability. Our services support federal missions by improving system interoperability, strengthening data governance, enabling intelligent decision platforms, and modernizing operational technology environments.

Core Capabilities

Digital Transformation Strategy and Implementation	ERP Integration and Optimization
AI Readiness Assessments for Federal Agencies	Cloud Transition Planning and Implementation
Enterprise Systems Integration and Architecture	Supply Chain and Operational Platform Modernization
Legacy System Modernization	Program and Transformation Delivery Leadership
Data Platform Architecture and Data Governance	Technology Portfolio Governance and Investment Prioritization

Representative Experience (Leadership)

Enterprise Digital Transformation Program – Global Consumer Brand: Led enterprise architecture and modernization initiatives integrating ERP, supply chain, and data platforms supporting global operations.

Supply Chain Platform Modernization – Fortune 100 Organization: Directed platform integration and operational technology modernization improving enterprise supply chain visibility and planning capability.

Enterprise Integration Strategy – Global Marketing Operations Organization: Designed enterprise integration architecture connecting ERP, procurement, and operational platforms supporting scalable digital operations.

Differentiators

- Veteran leadership with firsthand understanding of government operations
- Focus on practical modernization implementation rather than theoretical consulting
- Expertise integrating enterprise systems and operational platforms
- Experience bridging operational missions with enterprise technology platforms
- Agile delivery approach aligned with federal program structures
